

GALA READY: HYDRAFACIAL GIVES YOUR SKIN A TRUE A-LIST GLOW

BY SIENA DAVENPORT

If you have been dreaming of a youthful glow, the HydraFacial at Trifecta Med Spa is the answer to your beauty prayers. This latest treatment improves the look of your skin tone and elasticity in only 30 minutes. Your skin is most gorgeous when it's healthy and the spa's beauticians are dedicated to achieving outward radiance by focusing on your skin's nourishment, restoration, and damage prevention.

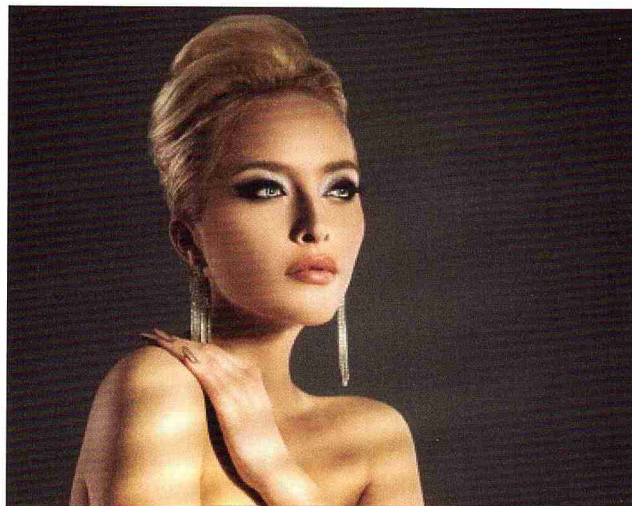

After a single visit to one of two elegant spas in New York City or the one in Hewlett, you will quickly become a fan of this luxurious and state-of-the-art service.

The efficient and multi-step HydraFacial combines the benefits of hydra-dermabrasion, a chemical peel, automated painless extractions, and a special delivery of antioxidants, hyaluronic acid, and peptides. The gentle, non-invasive treatment delivers immediate and noticeable results. You don't even have to experience any downtime or irritation. It's the best treatment out there right now for achieving a glowing, youthful look. In addition, it's also effective at treating oily skin, acne-prone skin, enlarged pores, hyper-pigmentation, and brown spots.

The HydraFacial is very popular right now among Trifecta Med Spa's clients. They love the treatment for the way it cleanses, exfoliates, hydrates, and provides a plumping, anti-aging effect. The added bonus is you can achieve a more youthful look without having to go under a surgeon's knife.

HydraFacial is a revolutionary new skincare treatment that is ideal for all skin types. If you begin using the soothing treatment in your 20s and 30s, this could mean less need for more drastic skincare procedures later on in life. The facials are a tremendous help at slowing down the visible aging process such as the appearance of fine lines.

There are several fabulous ways in which HydraFacial can be supplemented in order to suit different skincare needs. DermaBuilder is a procedure which can be done alongside HydraFacial, in order to help boost the eradication of fine lines and wrinkles, plumping up skin, firming it, and improving the overall feel. This is an extremely popular treatment at the moment, and an ideal one for people concerned about the signs of aging. For dry skin that requires extra hydration, An-

tiox-6 Skin Solution is the perfect choice.

There are many amazing advantages to getting a HydraFacial. Where some other treatments can be more invasive, harsher on the skin, and cause side effects in some cases, the HydraFacial is the opposite. It is a totally non-invasive and non-irritating treatment, which refreshes and hydrates skin without the need for any downtime. Clients of the spa love that they can see immediate results, lessening of fine lines and wrinkles, and radiant skin with little to no redness afterward.

After one treatment at Trifecta Med Spa, you will quickly become a fan of the HydraFacial and leave feeling relaxed and rejuvenated. If you have a special event coming up, this procedure will give you immediate results and a true A-List glow for your special night out.
